# The rationale of the Project is to establish MHPM for the staff employed in:

- Ministry of Health
- Institutes of Public Health
- Health Insurance Funds
- Primary Health Care Institutions
- Hospitals
- Clinical Centres

Postgraduate Studies in Public Health Sciences  
CD\_JEP\_40057\_2005

Particular attention will be given to the provision of training in:

- health management
- strategic and business planning
- health communication etc.

Postgraduate Studies in Public Health Sciences  
CD\_JEP\_40057\_2005

MHPM course will:

- facilitate the health care administration reform in Serbia
- contribute to the strengthening of civil society in Serbia
- accelerate the development of democracy and the rule of law in Serbia

Postgraduate Studies in Public Health Sciences  
CD\_JEP\_40057\_2005

**In addition to MHPM the Project team will work on development of doctoral studies in the field of PH sciences, supporting the reform of the HE, i.e. the implementation of the new law and Bologna process in Serbia.**

## Benefits of Tempus project:

- Newly developed curriculum for MHPM and teaching material
- New equipment: information-communication technology (ICT) for tele-education and for distance learning installed at C-SPH
- Teaching staff and postgraduate students with improved knowledge in English language and communication skills

Postgraduate Studies in Public Health Sciences  
CD\_JEP\_40057\_2005

## Benefits of Tempus project:

- Teaching staff educated in new PH
- MHPM course delivered – sustainability of the SPH
- Mobility within Europe for teaching staff and students
- Experience gained in a project (skills of management of trans-national partnerships)
